

Stand up unite

Stand up together and unite together

Some of the time me rhyme just a little slow
Some of the time me wanna let the people know
Where ah me am from me ah feel invincible
Is it a curse tell me cause me wanna know

When me look around at the world its incredible
Why we always separate the untouchable
Why we cannot live as one need to let them know
Is it a curse tell me now me slow mi flow

Me ah always find a reason me say for me to be free
Me ah always find a reason for democracy
Me ah always find a reason me say for me to be free
Me ah always find a reason for democracy
Cause when me see a rich man him ah claiming all the land
And me see the poor man, me ah not understand
When me see the boy and girl, them are fallin' in love
At the time of the marriage they say dowry not enoughh, me say

Stand up together and unite together
Stand up together and unite together

As our great forefathers once said
Stand with pride
And stand side by side
For together as one
We can make the impossible possible
We can make the untouchable touchable
We can make the unsuccessful successful

Jana Gana Mana... ..

Stand up stand up me say stand up together now
Unite unite me say unite together now
Stand up stand up me say stand up together now
Unite unite me say unite together now

Stand up together and unite together
Stand up together and unite together
Stand up together and unite together
Stand up together and unite together
